

Wireless Remote Control System for Air Balancing Damper Adjustments

The RP Series panels allow the power/signal cables from multiple actuators to merge at a central location.

The RP Series remote panels are designed for flush mounting to flat surfaces. Mates to standard 2-1/2" deep, 1, 2, and 3 gang electrical boxes.

Standard configuration 1, 4, 8 and 12 RCA connectors. Custom designs are based on project specifications.

The RP Series standard construction options:

Face Plate: 14 gauge (0.064) powder coated aluminum #2 finish stainless steel

Finish Color: white black brown gray almond custom per sample

No. of Nodes: one four eight twelve

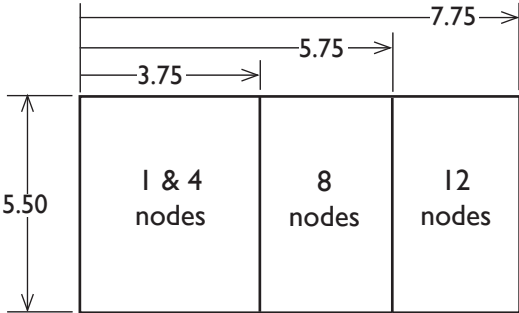

Markings: silk screen design as shown no markings

For custom panels contact The Zip Group with specifications and details

The labor saving and adjustment accuracy of wireless control with the Key Fob is maintained with the Remote Control Module connected at the panel.

During installation, the ZSA-1 actuator cable's male RCA plugs are a quick and fool-proof hookup to the F-F connectors on the back of the panels.

Even a well-designed HVAC system may perform poorly and waste energy if not properly balanced. The Zipset System's unique approach to the air balancing task offers a quick, precise, and economical solution.
